1. What is History?

- The simplest definition of History is the study of past events that is connected with someone or something.

2. Why do we study History?

- We need to study history for us to know what happened before and it also helps in connecting a series of events in order for us to fully understand how events in the past made things the way they are today.

3. Choose one event in Philippine history. Why is the event important to you?

- When the Spaniards invaded the Philippines. Because we all know how long the Spaniards invaded the Philippine and the effect of it to the Filipinos. They see the Filipinos as Indio or stupid and also they see us as slave and this event in our History really affected how Filipinos live and how Filipinos think.
