Project Meeting 1

Date/time	March 20, 2025 10:00 PM - 11:10 PM
Group No. and Name	Group 2 - SAMTECHTRIO | *BDDR HOMES: A WEB-BASED RECOMMENDER SYSTEM FOR PROJECT SALES IN BD DOMINGO REALTY USING HYBRID FILTERING TECHNIQUE*
Location	Google Meet Link: https://meet.google.com/cbn-hakp-kyi?authuser=1
Initiated by	Simolata, Shekinah Glory G. | Team Leader
Participants	Members: Diawan, Airich Jay S. Erna, Louis Miguel G. Tech Adviser: Asst. Prof.Christian Michael M. Mansueto, MIS

Agenda

1. Testing the System
2. Minor Changes of the System
3. Survey

Objectives

1. Identify system issues.

2. Measure user satisfaction.

3. Evaluate feature usefulness.

4. Gather improvement suggestions.

Discussion

| Discussion	Tech Ad Comment
Minor Changes of the System	Tripping mark as done: add a note option - I suggest adding a note option so users can provide additional details when marking a task as done. This will improve tracking and accountability. Team performance: add graph - A simple line or bar chart can help us quickly assess productivity and areas for improvement. What do you think about this approach? Team Leader Color - This will make it easier for members to identify key personnel at a glance. Do we have preferred color codes, or should we follow an existing theme? Add logs: old value new value - For better transparency, I recommend logging both old and new values when making system changes. This will help in tracking modifications and troubleshooting issues. Would you like any additional details included in these logs? I am expecting to discuss this in our meeting on the 2nd.
Survey	How did your survey go? When is your mock defense, and how many more meetings do you have before you get endorsed?

Prepared by:

Simolata, Shekinah Glory G. | Team Leader

Noted by:

Technical Adviser
Asst. Prof.Christian Michael M. Mansueto, MIS

Project Meeting 2

Date/time	March 24, 2025 9:30 - 10:30 PM
Group No. and Name	Group 2 - SAMTECHTRIO | *BDDR HOMES: A WEB-BASED RECOMMENDER SYSTEM FOR PROJECT SALES IN BD DOMINGO REALTY USING HYBRID FILTERING TECHNIQUE*
Location	Google Meet Link: https://meet.google.com/cbn-hakp-kyi?authuser=1
Initiated by	Simolata, Shekinah Glory G. | Team Leader
Participants	Members: Diawan, Airich Jay S. Erna, Louis Miguel G. Tech Adviser: Asst. Prof.Christian Michael M. Mansueto, MIS

Agenda

1. Results of System Changes
2. Addressing Deadlines for Other Modifications

New Business

3. Survey Results
4. Assessing System Completion – Do We Need Another Meeting?
5. Key Features – Must Be Documented in the Paper
6. Next Meeting – Face-to-Face Tomorrow

Objectives

Evaluate the impact of system changes.

Address deadlines for pending modifications.

Review survey results and key findings.

Determine if another meeting is needed for system completion.

Ensure key features are properly documented.

Plan for the next face-to-face meeting.

Discussion

Discussion	Tech Ad Comment
Results of System Changes	Let's go over today's agenda and ensure we're on track with our system updates. We've implemented some modifications. Let's review their impact and see if they meet expectations. I suggest conducting a quick functionality test to confirm everything works as expected. Any issues so far?
Addressing Deadlines for Other Modifications Bar Graph of Agent and Team Leader (Colors)	We need to finalize any remaining changes. Are there any blockers we should address? I recommend setting priority levels for each task to ensure smooth completion. Do we need adjustments to the timeline?
Survey Results	The survey feedback is in. Let's focus on key concerns raised by users. I suggest categorizing responses into critical, moderate, and minor issues for better action planning.
Next Meeting – Face-to-Face Tomorrow	We'll meet in person tomorrow to finalize remaining concerns. Let's come prepared with a checklist to streamline the discussion.

Project Meeting 3

Date/time	March 25, 2025 3:30 PM - 4:30 PM
Group No. and Name	Group 2 - SAMTECHTRIO | *BDDR HOMES: A WEB-BASED RECOMMENDER SYSTEM FOR PROJECT SALES IN BD DOMINGO REALTY USING HYBRID FILTERING TECHNIQUE*
Location	Face to Face
Initiated by	Simolata, Shekinah Glory G. | Team Leader
Participants	Members: Diawan, Airich Jay S. Erna, Louis Miguel G. Tech Adviser: Asst. Prof.Christian Michael M. Mansueto, MIS

Agenda

1. Final Outcomes
2. Implementation of Suggestions
3. Reviewing System Output

Objectives

1. Present the final outcomes of the system.

2. Review and evaluate implemented suggestions.

3. Verify and assess the system output.

Discussion

Discussion	Tech Ad Comment
Final Outcomes	Final updates and ensure everything is on track. I suggest running a quick review to confirm everything functions as expected. Are

	there any remaining concerns?
Implementation of Suggestions	Tripping Mark as Done – Add a note option for better tracking and accountability. Team Performance – Use a line or bar chart to visualize productivity. Team Leader Color – Assign colors for easier identification. Preferred codes or follow a theme? Logs (Old & New Values) – Track changes for transparency and troubleshooting. Any extra details needed? Discussion set for the meeting on the 2nd.
Reviewing System Output	Let's check the system output to verify accuracy. I recommend comparing it against our expected results and running a final test.
